## Requisites for Admission to College Classes.

---

Candidates for admission in the Freshman Class are examined in the following or equivalent studies:

Whitney's Essentials of English Grammar, Mitchell's Geography, Robinson's Arithmetic, Robinson's Algebra, Harkness' Latin Grammar and Reader, Cæsar (four books), six books of Virgil's *Æneid*, Goodwin's Greek Grammar, White's Greek Lessons.

Candidates for a higher standing are examined in the same studies, and also in that part of the course gone over by the class to which they may desire admission.

All students must bring satisfactory testimonials of good moral character; and those from other colleges certificates of dismission in good standing.

Thorough acquaintance with the studies required for admission is indispensably necessary in order to receive the full benefit of the subsequent College Course. It is found by experience that students imperfectly prepared for the class they enter are embarrassed in their future progress, and seldom repair the want of proper preparatory study.

Forensic discussion throughout the year.

The English Course prescribed is more thorough than heretofore required. With most students who come to us there is a lamentable deficiency in the correct knowledge and use of our language. We have, therefore, enlarged the Course with the design of removing this deficiency.

In the modern European languages the student is required to render exercises both orally and in writing, as well as to translate regular discourse. Thus the natural and scientific methods are both daily employed.

Anthon's Classical Dictionary, Smith's Grecian and Roman Antiquities, and Mitchell's Ancient Atlas are used for reference by the classical students throughout the Course.

The members of the Senior Class deliver orations before the Faculty and students throughout the year. Greek and Latin Compositions will be attended to during the first three years of the Classical Course. Dictation, Declamation and Composition in the French, German and Spanish Languages will be attended to throughout the whole Scientific Course. Chemistry is taught by Recitation and Lecture, accompanied with Experiments. Regular Lectures will be delivered by the President and Professors upon the subjects connected with their several departments.

## LIBRARY.

The College Library contains about 2000 well-selected volumes of both ancient and modern literature. The importance of such a Library to the reading student, during his Collegiate Course, is too obvious to need remark. The Library is accessible to all students.

## APPARATUS AND CABINET.

The College possesses a valuable set of Philosophical, Astronomical and Chemical Apparatus, and also a well-selected Mineralogical and Geological Cabinet. The apparatus includes a Theodolite, Sextant, Compass, Chronometers, Atwood's Machine, Whirling Tables, Electrical Machine, Air Pumps, various combinations of the Mechanical Powers, Batteries, Chemical Tests, etc., sufficient for an extended course of observations and experiments.

ALUMNI ASSOCIATION.

There is an annual meeting of the Alumni Association on Tuesday before the first Wednesday in June. At their annual meeting, July 9, 1872, steps were taken to endow a chair in the College, to be called the Alumni Professorship.

## YOUNG MEN'S CHRISTIAN ASSOCIATION.

This organization is now entering upon the third year of its prosperous career. The officers for the ensuing year are as follows: R. H. Wynn, President; R. E. Rutledge, Vice President; W. H. Lewis, Corresponding Secretary; W. L. Linfield, Recording Secretary; W. J. Ferguson, Treasurer.

## LITERARY SOCIETIES.

There are two regular Literary Societies connected with the institution. These are of great utility to a young man acquiring a liberal education—improving him in the art of public speaking, and making him in some degree familiar with the proceedings of deliberative bodies, and in cultivating systematic business habits. Each Society has a convenient hall and well-selected library—about 1600 volumes each. There is a joint exhibition of the two Societies in the middle of the session, and an Anniversary Exhibition on Tuesday next preceding Commencement day. In addition to the advantages above mentioned, each Society secures a column in some popular newspaper of the State, and appoints its “Editor and Associate” to edit it, and any of the members are at liberty to write. In these columns appear productions from the Preparatory to the Senior Class. This practice has been rigidly observed for several years, and with most gratifying results.

## MEDAL.

The Hon. G. T. McGehee offers a Medal for the best oration in the College Classes. This award will be made in reference to both Composition and Declamation.

## PREPARATORY DEPARTMENT.

Special attention will be given in this department to Reading, Geography, Arithmetic, History, Penmanship, Composition and Declamation; so that should a student not take the entire course, he still would be furnished with a good business education.

## EXTRACTS FROM THE STATUTES.

CHAPTER VI.—*Religious Exercises*.—The exercises of every day shall be opened and closed with prayer by the President, or some other member of the Faculty, when all the students shall attend.

2. The students shall attend Divine worship in the College, Chapel, or elsewhere, every Sabbath.

3. The due observance of the Sabbath is earnestly recommended, and all practices inconsistent with the reverence due to the day are expressly prohibited.

CHAPTER XII.—*Of Commencements, Sessions, Examinations and Vacations*.—There shall be two Annual Examinations: one in the middle of the session; the other commencing on Monday preceding the last Wednesday in May. The Commencement day shall be the first Wednesday in June.

2. The regular Academic year shall begin on the first Monday in September of each year.

3. The only regular holidays will be on Thanksgiving Day, Christmas Day, and New Year's Day. The regular vacation shall be from Commencement day to the first Monday of September of each year.

CHAPTER XII.—*Of Expenditures*.—Every student whose parent or guardian does not reside in Jackson, or immediate vicinity, is recommended to have an Academical guardian nominated by himself, with the consent of his parent or legal guardian, whose duty it shall be to take charge of his expenditures, and with whom shall be deposited such a sum of money as his parent may think proper. In the article of pocket money the strictest economy is most earnestly recommended and requested.

## GENERAL INFORMATION

This College was established by the State of Louisiana in 1825, and was taken under the patronage of the Methodist Episcopal Church South in 1845, and has been constantly growing in importance and usefulness. It is located in the village of Jackson, about twelve miles from Bayou Sara, in a grove of pine, magnolia, oak and beech. The location is remarkable for its beautiful woodlands, its unrivaled healthfulness, and rare social advantages.

The government is mild and parental, but consistent and firm. If a student is found to be incorrigibly vicious or idle, he is dismissed. The punishment consists of demerit marks, private reproofs, public reproofs, suspension and expulsion. If a student be expelled or suspended, and the sentence be not revoked, it shall be published in the forthcoming catalogue. The reward consists of merit marks and public honors on the day of Commencement. So that by every incentive, by appeals to the nobler principles of the nature, by affectionate entreaty and friendly counsel, by the hope of distinction and the fear of disgrace, the Faculty endeavor to maintain order and the purest morality.

The buildings consist of a commodious Steward's Hall, two brick Dormitories, containing each twenty four rooms, and a magnificent centre building. This latter has been erected at an expense of over sixty thousand dollars. It contains a Chapel for public exhibitions, large enough to seat over two thousand persons, two large Society Halls, a Chapel for prayer, eight commodious Recitation Rooms, one Library Room, Cabinet Room, separate rooms for Chemical and Philosophical Apparatus, an office, and other rooms for other purposes.

ACCESS.—*Railroad and Telegraph.*—The recent construction of the Mississippi Valley Railroad puts the College within five miles of a grand trunk line, affording access from all parts of the country. Telephonic and, hence, telegraphic connection puts Jackson, La.—the seat of the College—into communication with the outside world.

PROHIBITION.—The sale and purchase of liquors and wines, except for medicinal and mechanical uses, are prohibited within the corporation of Jackson. Popular vote keeps them excluded—a state of society that speaks well for the people of this town.

IMPROVEMENTS.—Friends of the college are endeavoring to raise an endowment, which, it is hoped, will soon be done. Others are contributing to necessary repairs upon the grounds and buildings. We hope to have fully fifty dormitory rooms in excellent order for the use of students rent free. The Alumni are proposing to endow the chair of Natural Science, which will be partially, at least, effected before September next. This now amounts to about \$4000, and is being constantly increased.
